DEVELOPMENTS DURING THE QUARTER

SUMMARY

Driving forward our vision for a digitally empowered nation, we achieved breakthrough milestones this quarter that reaffirm our leadership and commitment to innovation. We successfully achieved 100% Fibre-to-the-Home (FTTH) coverage across all inhabited islands, delivering high-speed broadband access nationwide. With a significant infrastructure advancement, we also inaugurated the Maldives' first Tier IV Certified Data Center, setting a new national benchmark for reliability and resilience.

Our leadership in mobile connectivity was reaffirmed as Ookla® named Dhiraagu the 'Fastest 5G Network in the Maldives' for Q3–Q4 2024, with 68% population coverage. We continued to strengthen our position in fintech, as our subsidiary Dhiraagu Fintech launched an enhanced DhiraaguPay platform. This milestone reflects our commitment to expanding digital inclusion by offering accessible, secure, and innovative payment solutions that meet the evolving needs of both consumers and businesses. Also, we became the first non-banking party to integrate with the Instant Payment System (Favara) operated by Maldives Monetary Authority, to deliver convenient and inclusive financial services.

Customer engagement remained strong, supported by with high-impact campaigns such as the 'Win a Speedboat' promotion, which concluded with the grand prize handover of the Al Shali Marine Magellan 32. Our Ramadan and Eid offers further reinforced customer engagement, with daily giveaways, charitable donations via DhiraaguApp, and the Eid Hadhiya gifting initiatives. In line with our focus on digital lifestyle experiences, we launched Dhiraagu Gamers Guild Season 1 and announced DMGC 2025 - the Maldives' largest e-sports championship. Additionally, GameQuest – Addu Edition, our first-ever esports event in an atoll, marked a key step in empowering regional youth and promoting competitive gaming.

We also enhanced our support for the business sector through the launch of the "Biz Limitehneh" plan, catering to the specific needs of SMEs and the public sector.

Following our strong financial performance in the prior quarter, revenue and profit after tax were slightly lower in Q1 mainly due to seasonality and timing. Cash flow before financing improved primarily due to lower investing cash flow compared to Q4 as we continued our investment in delivering better experience for our customers, including the rollout of our FTTH network to all inhabited islands and our investment in 5G which resulted in Dhiraagu being recognised as the fastest 5G network in the Maldives.

1.1 KEY FINANCIAL HIGHLIGHTS

Gross revenue for Q1 2025 was marginally lower compared to the prior quarter mainly due to seasonality and timing. Profit after tax was 5.2% lower due to the lower revenue. Although this represents a slight decrease from the previous quarter, the Company enhanced its efficiency by reducing expenditure. Cash flow before financing improved in Q1 primarily due to lower investing cash flow.
